REMARKABLE SOUVENIR FOR PEACE CONGRESS

A pillow valued at \$10,000 is to be presented to the forthcoming Peace Congress at The Hague by Miss Mabel Parker of New York.

For several years Miss Parker, who is a trained nurse, has been at work on this pillow. It is made up of pieces of linen taken from the household of Napoleon Bonaparte and contains the

autographs of famous statesmen, jurists, rulers and generals. Among the signatures are those of President Roosevelt, Grover Cleveland and Prince Henry of Prussia, as well as many other notables. The pillow was on exhibition at the St. Louis World's Fair and was there valued at \$10,000 by the judges of exhibits.

TAKES PEN IN HAND

WISE STANDS PAT AND STATES THAT HE IS NOT REQUIRED TO SUPPLY INFORMATION.

John H. Wise clerk of the House of Representatives has addressed a letter to Secretary Atkinson, in reply to the latter's letter relative to the House Journal. Atkinson asked that Wise enumerate the errors that were said to be in the original copy of the House Journal, prepared by Charles R. Buckland and also to furnish the Secretary with three copies of the House Journal for transmission to the President, the President of the Senate and the Speaker of the House.

In reply, Wise says that he has not the time in which to enumerate the corrections, taking the position that he is not required to supply any such information. The House made him no allowance in the way of salary, to correct or indicate any errors or omissions in the Journal and he declines to do so. The matter is still in the air. Wise says that the "original" as prepared by Buckland "purports" to be the "original" House Journal, but owing to lack of time, he cannot attest to its correctness.

Senator Palmer P. Woods arrived here this morning from Kohala on a business trip.

POLITICAL CHANGES

RUMOR THAT SENATOR GEORGE C. HEWITT HAS BOARDED DEMOCRATIC BANDWAGON.

It is reported about the city that Senator George C. Hewitt has left the ranks of the Republican party and become a Democratic stalwart. This rumor could not be verified however.

Hewitt is one of the Republican senators from the island of Hawaii. It was he who introduced the anti-dated resignation bill in the Senate at the recent session of the legislature. He has been anti-Administration in his attitude although standing in support of the general policy of his party.

Samuel Pua the county clerk of Hawaii, is said to have left the Republican party, for the ranks of the Home Rulers.

WHITNEY REAPPOINTED.
District Magistrate W. L. Whitney's term of office expires tomorrow. He has been reappointed and his new commission will be issued to him tomorrow.

OKOLEHAO IN SIGHT

GOOD NEWS FOR PEOPLE WHO LIKE THAT KIND OF STRONG BOOZE—DOMESTIC INDUSTRY.

Acting Collector of Internal Revenue Drake today received a report from Deputy Ralph Johnston who is now in Kona superintending the installation of the new okolehao distillery near Napoopoo. Up to the time that the deputy wrote, the work at the distillery had been experimental. It was expected that the first run-off would occur on June 3, yesterday. While the run-off will occur on that date, it does not follow, in consequence, that the officially distilled okolehao will be on the market within a short time. It is by no means certain that the mash may prove of a satisfactory kind, and further experiments may be required. It is almost invariably the case with the installation of new plants of this character, that considerable delay results in starting the institution.

Johnston will have to remain a week to ten days longer in Kona, to attend to the work of operating the distillery. It is thought that the distillery may be in operation by the middle of this month. The okolehao is being distilled from the root of the ti plant and will, therefore, be of the purest kind that is known.

SENSIBLE.
It certainly is to buy your wines, and spirits and beer in bulk. And the largest and best stock is kept by the Criterion Jobbing Department.

APPLIED TORCH

AUTHORITIES BELIEVE THAT LOSS OF PRESIDENT GRIFFITHS' HOUSE ACT OF INCENDIARY.

Fire at 1:45 o'clock this morning utterly destroyed the almost completed building in the Oahu College grounds intended for occupancy by President Griffiths.

There is strong reason to believe that the flames were started by an incendiary who had for his object vengeance. The police, the underwriters and the fire department are at work on the case and an inquest will be held this afternoon or tomorrow.

Contractor Campbell was the builder and he employed Japanese to do the work. Campbell also constructed the Waldron house, burned not long ago, and Japanese were employed on the work.

The theory at present is that considerable feeling has been occasioned by the employment of Japanese when the work might have been given to white men or Hawaiians and that this feeling materialized in the form of a torch applied in the early morning hours.

The circumstances of this morning's fire and the circumstances of the burning of the Waldron premises in College Hills are very similar. At time of the respective fires there was no one living in either house. Each house was all but completed. No satisfactory explanation was ever made of the Waldron fire. In each case the first

"No Hold Up" Says F. W. Macfarlane

PURELY A BUSINESS PROPOSITION BETWEEN UNION FEED COMPANY AND GOVERNOR'S COMMISSION—MATTER WILL BE SETTLED TOMORROW AT A MEETING OF THE CORPORATION—STATUS OF THE FEDERAL BUILDING SITE.

F. W. Macfarlane, of the Union Feed Company is resentful over the statement that his company, or any member of it is holding up the deal of the Federal government for the Mahuka site for the new Federal building. "The matter is purely a business proposition between the Union Feed Company and the Commission appointed by Governor Carter," said Mr. Macfarlane in an interview this morning, "and the statement that we are trying to stand up anybody is entirely incorrect. It is true that up to the present time we have not seen it to accept the proposition of the commission, but we are not doing anything of a standup character. We hold a meeting of directors tomorrow morning when I presume the matter will be decided finally."

Whether or not the Union Feed Company is willing to allow Bishop street to be opened through their property on the makai side of Queen street, does not necessarily mean that the deal with the Federal government for the Mahuka site will be off. But it will mean that some other method will have to be taken for raising \$17,500 which it seems stands in the way of opening Bishop street between King and Merchant street, which is all that the Federal government demands. When the Mahuka property, which is being handled by the Henry Waterhouse Trust Company, was selected, it was conditional that a sixty-foot street be opened on the Walkiki side of the lot between King and Merchant streets. Besides the Mahuka heirs several other parties would have to surrender property in order to do this, including W. C. Peacock and John Emmeluth, who has a leasehold on King street. In arranging for this one block of street, the land necessary for it was figured at the same rate per foot as the part to be sold to the government and amounting to \$35,000. Half of this amount in some way was provided.

ECONOMY THE WORD

IF DEPARTMENT HEADS GET GAY WITH PUBLIC MONEY REGISTERED WARRANTS WILL BE RESULT

Unless the heads of the Territorial departments exercise considerable economy in the matter of expenditures for the present year, warrants will have to be registered in February and March.

Before the legislature met the Governor was furnished with the following as the estimate for the biennial period, \$3,153,000. Treasurer Campbell figured that at least \$200,000 more could be added to this sum as the smaller amount would represent the cash balance that would probably be on hand at the end of the fiscal year, June 30. Appropriations amounting to \$3,351,425 were made by the legislature. But the cash balance will not be so large as expected. Already the money for the expenses of the legislature has been paid out of that sum if there be any rush on the part of Territorial departments to draw on their old appropriations before the expiration of June, then the cash balance which was figured of \$200,000 will not be available for the new biennial period.

It would not be surprising if the cash on hand would be cut down materially, and until the reports from the various departments for this month will have been passed on, it will be possible to determine exactly where the Territory will stand. If there be a rush by the various departments to spend the appropriations, then there will be a shortage of cash by February and March. The salary appropriations are pro rata and can be drawn only every month, but the general appropriations involve no such conditions.

One reason that the Territory may run behind will be on account of having to advance money to the Counties. During the first four months of every half year, the counties draw proportionately more money from the Territory than they pay back in the way of various receipts. During the last two months however the receipts from the Counties come in and this pays back the Territory for advances.

It is not thought, however, that there will ultimately be any shortage of funds in the way of Territorial income and the registration of the warrants will be but temporary. If however the new license law giving the Counties that income is sustained by the Supreme Court, then the finances of the Territory may become embarrassed and a shortage result.

NO HEIR MAY CAUSE ROYAL DIVORCE

DUKE and DUCHESS OF ORLEANS.

The Duke of Orleans, pretender to the throne of France, is in Belgium with the object of getting a divorce from his Duchess because of her failure to present him with an heir to his title and what he still believes to be his right to rule as the Emperor of the French nation. The Duke has never been happy with his wife, and his escapades have been the talk of Europe. He has blamed her for his unpopularity in France and his presence in Brussels now is said to be for the purpose of obtaining the influence of Cardinal Merry del Val, through aristocratic friends in the Belgian Capital, with the Pope, in order that a divorce may be obtained and he be left free to conspire for his royal heritage. Royalists like the Duke of Uzès, the Duke of Lannes and the Count of Lur-Saluces have indicated to the Duke of Orleans that only his marriage to a popular princess will strengthen his position and make him again popular with the royalist party. In the event of no such alliance being effected, it is more than likely that his claims will be repudiated and that he will be replaced by his younger brother, the Duke of Montpensier.

131 MARRIAGES IN MONTH OF MAY

CUPID AND CLERGY WORKING OVERTIME—SEVENTY NEW BABIES—104 DEATHS.

Priest and parson, clergyman and kahunapule worked overtime during the merry month of May, for the vital statistics for that glad month, just to hand, show that no less than 131 marriages occurred, on an average of over four a day. This comes pretty near being the best record for a long time.

During the aforesaid happy period the local population was increased by seventy, over two per diem on an average. This should be encouraging to Roosevelt enthusiasts and the next governor should distribute 70 little Teddy bears by way of souvenirs.

There were 104 deaths during May of which 54 were males and 50 females, the annual death rate per 1000 of population being 31.75. The number of deaths shows an increase of 18 com-

pared with the corresponding month of last year. Forty-two deaths occurred in public institutions.

NAME FOR THEMSELVES.
The candles of the Alexander Young Cafe have not been in the market six months, but they have already made a name for themselves.
